PROFESSIONAL SUMMARY

Senior Full Stack Software Engineer with **8+ years of experience** building **scalable, high-performance web applications** using **.NET (Core / Modern .NET)** and **Angular**. Strong background in **Clean Architecture, Hexagonal Architecture, Domain-Driven Design (DDD)**, and **enterprise-grade systems**, especially in **financial, banking, and large-scale corporate environments**.

Experienced working with **distributed teams**, agile methodologies, and DevOps pipelines. Passionate about clean code, system design, performance, and delivering real business value through technology.

PROFESSIONAL EXPERIENCE

Software Engineer — G4F

Nov 2023 – Present

Worked on **two strategic enterprise projects** for major Brazilian institutions: **SEFAZ-BA** and **Ambev (AB InBev)**.

Project 1 — SEFAZ-BA (Brazilian State Treasury)

Mission-critical **financial and banking control system** used to manage government accounts and fiscal operations.

Key Achievements & Responsibilities:

- Development of secure and scalable backend services using **.NET 6 & .NET 8**
- Frontend development with **Angular 12–19**, including reusable component libraries
- Designed and maintained APIs following **Clean Architecture principles**
- Worked with **SQL Server and PostgreSQL** in high-volume financial scenarios
- Actively participated in **Scrum ceremonies** and technical decision-making

Project 2 — Ambev (AB InBev)

Design and development of a **KPI Management Platform** for monitoring business performance and strategic indicators across the organization.

Key Achievements & Responsibilities:

- Built a modern, scalable platform using **.NET 8** and **Angular 16 & 19**
- Designed APIs and domain logic focused on **performance, scalability, and maintainability**
- Implemented KPI visualization, filtering, and analytics features
- Worked with **PostgreSQL** as the primary database
- Contributed to architectural decisions and frontend component standardization

Tech Stack: .NET 6/8, Angular 12–19, PostgreSQL, SQL Server, Azure DevOps

Software Engineer — Mottu

Jan 2022 – Nov 2023

Worked on **Mottu Entregas**, a large-scale logistics and delivery platform operating nationwide.

Highlights:

- Built and maintained APIs and front-end features for real-time delivery workflows
- Improved system performance and reliability in production environments
- Collaborated with cross-functional teams using **GitHub** and **Azure DevOps**

Tech Stack: .NET, Angular 9+, SQL Server, PostgreSQL

Software Engineer — LeadLovers

Aug 2020 – Dec 2021

Worked at a **digital marketing SaaS startup**, developing systems for **lead capture, email marketing, and dynamic landing pages**.

Highlights:

- Developed scalable marketing automation features
- Maintained legacy systems while modernizing components

Tech Stack: .NET Framework MVC, .NET Core, AngularJS, SQL Server

Software Engineer — Capgemini

Jul 2019 – Aug 2020

Consultant working on projects for **major Brazilian enterprises** such as **Bradesco, Banco do Nordeste, FIEB, and Hydro**.

Highlights:

- Delivered enterprise solutions under strict compliance requirements

- Worked across multiple domains and large codebases

Tech Stack: .NET, Angular, SQL Server

Software Engineer — Sonda

Nov 2018 – Jul 2019

Contracted to **Petrobras**, maintaining and evolving more than **10 enterprise applications**.

Tech Stack: .NET, JavaScript

Software Developer — Salut

Dec 2017 – Nov 2018

Early-career role focused on **legacy system modernization**.

Highlights:

- Migrated systems from **VB6 to C# Windows Forms**
- Developed Web Forms applications and database integrations

Tech Stack: C#, Web Forms, Windows Forms, SQL Server, JavaScript, Bootstrap

EDUCATION

Associate Degree in Systems Analysis and Development

UNIJORGE — 2019

 **3rd place** in a university hackathon developing a **chatbot solution for public healthcare units** using Facebook integration.

LANGUAGES

- **Portuguese:** Native
 - **English:** Advanced (C1)
-

CORE SKILLS

Backend

C#, .NET, ASP.NET Core, Web APIs, Entity Framework Core, DDD, CQRS (CQS), REST

Frontend

Angular (9–19), TypeScript, JavaScript, PrimeNG, Angular Material, Bootstrap

Databases

SQL Server, PostgreSQL, RedisCache (basic)

Cloud & DevOps

Azure DevOps, GitHub Actions, CI/CD, Docker, Kubernetes (basic), GitFlow

Architecture & Best Practices

Clean Architecture, SOLID, TDD, Repository Pattern

Testing & Observability

xUnit, NUnit, Jasmine, Karma, Datadog

Agile & Collaboration

Scrum, Azure Boards

ADDITIONAL INFORMATION

- Open to **international remote positions** and **relocation**
- Strong interest in **software architecture, performance, cloud-native systems, and scalability**
- Background in **enterprise-grade and startup systems**, highly valued in global markets
